A PIECE TO THE PUZZLE

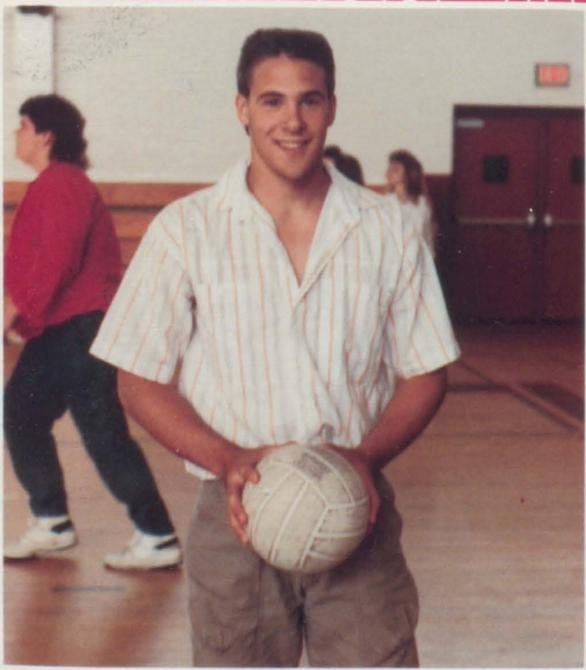

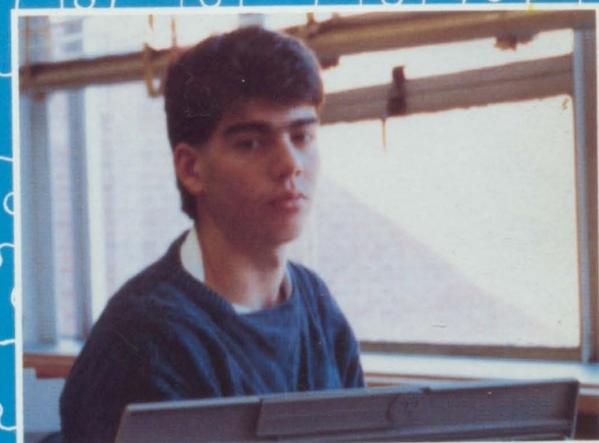

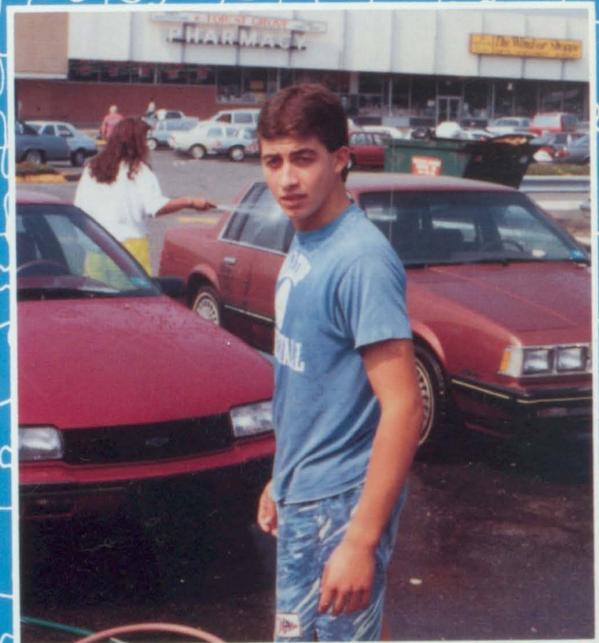

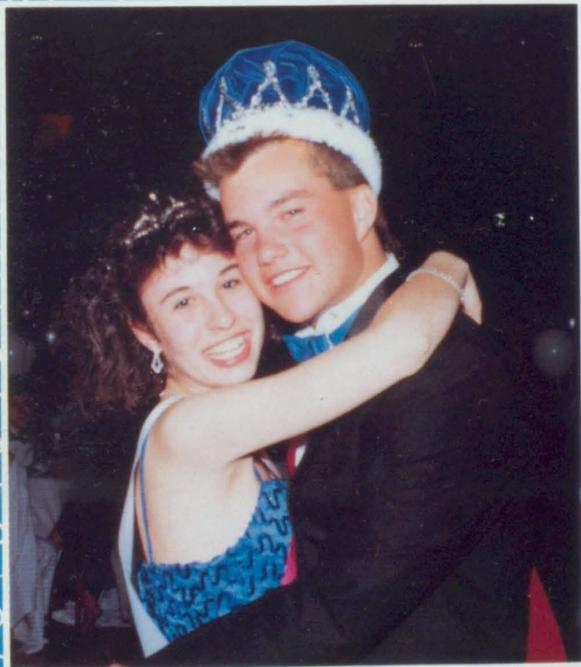

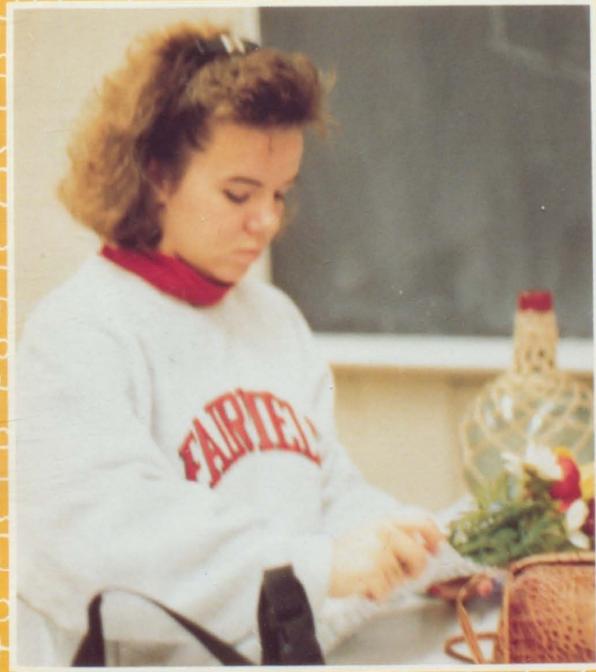

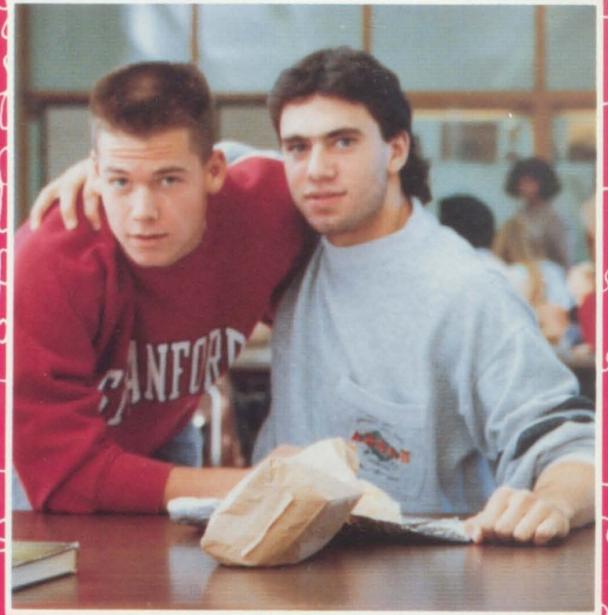

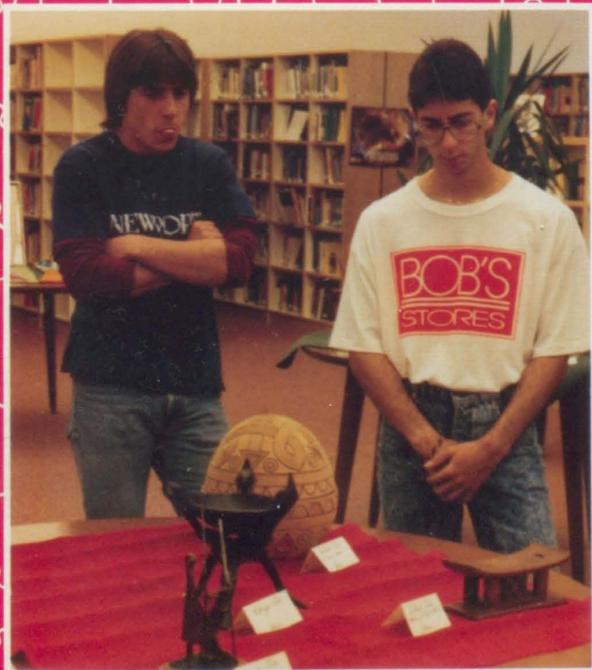

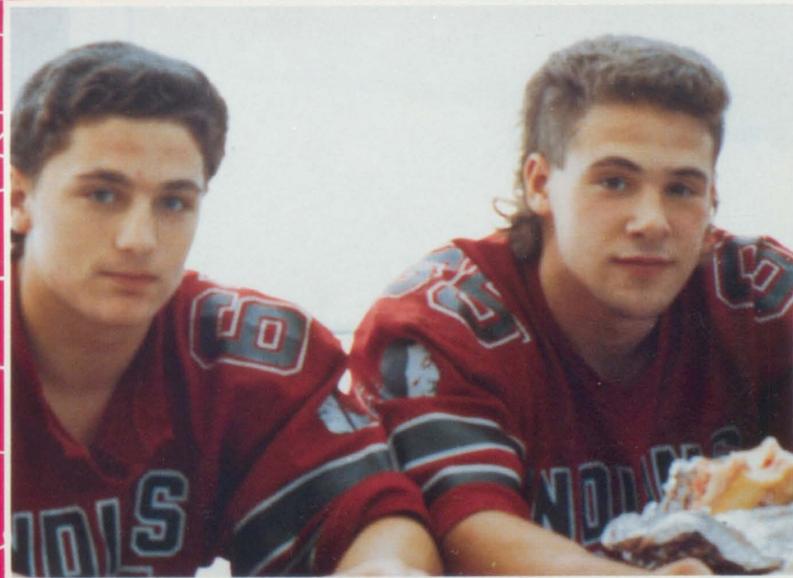

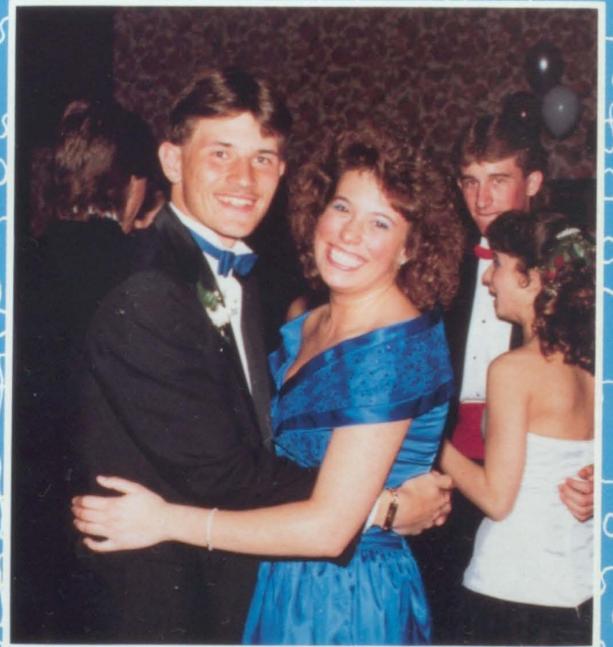

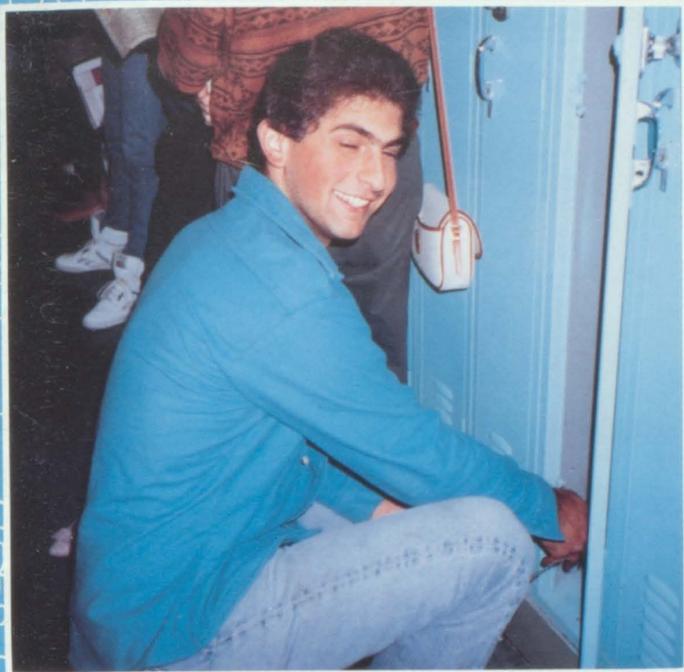

After Graduation Day, when we begin a new stage in our lives, we'll look back at all the special times we shared at North Haven High...

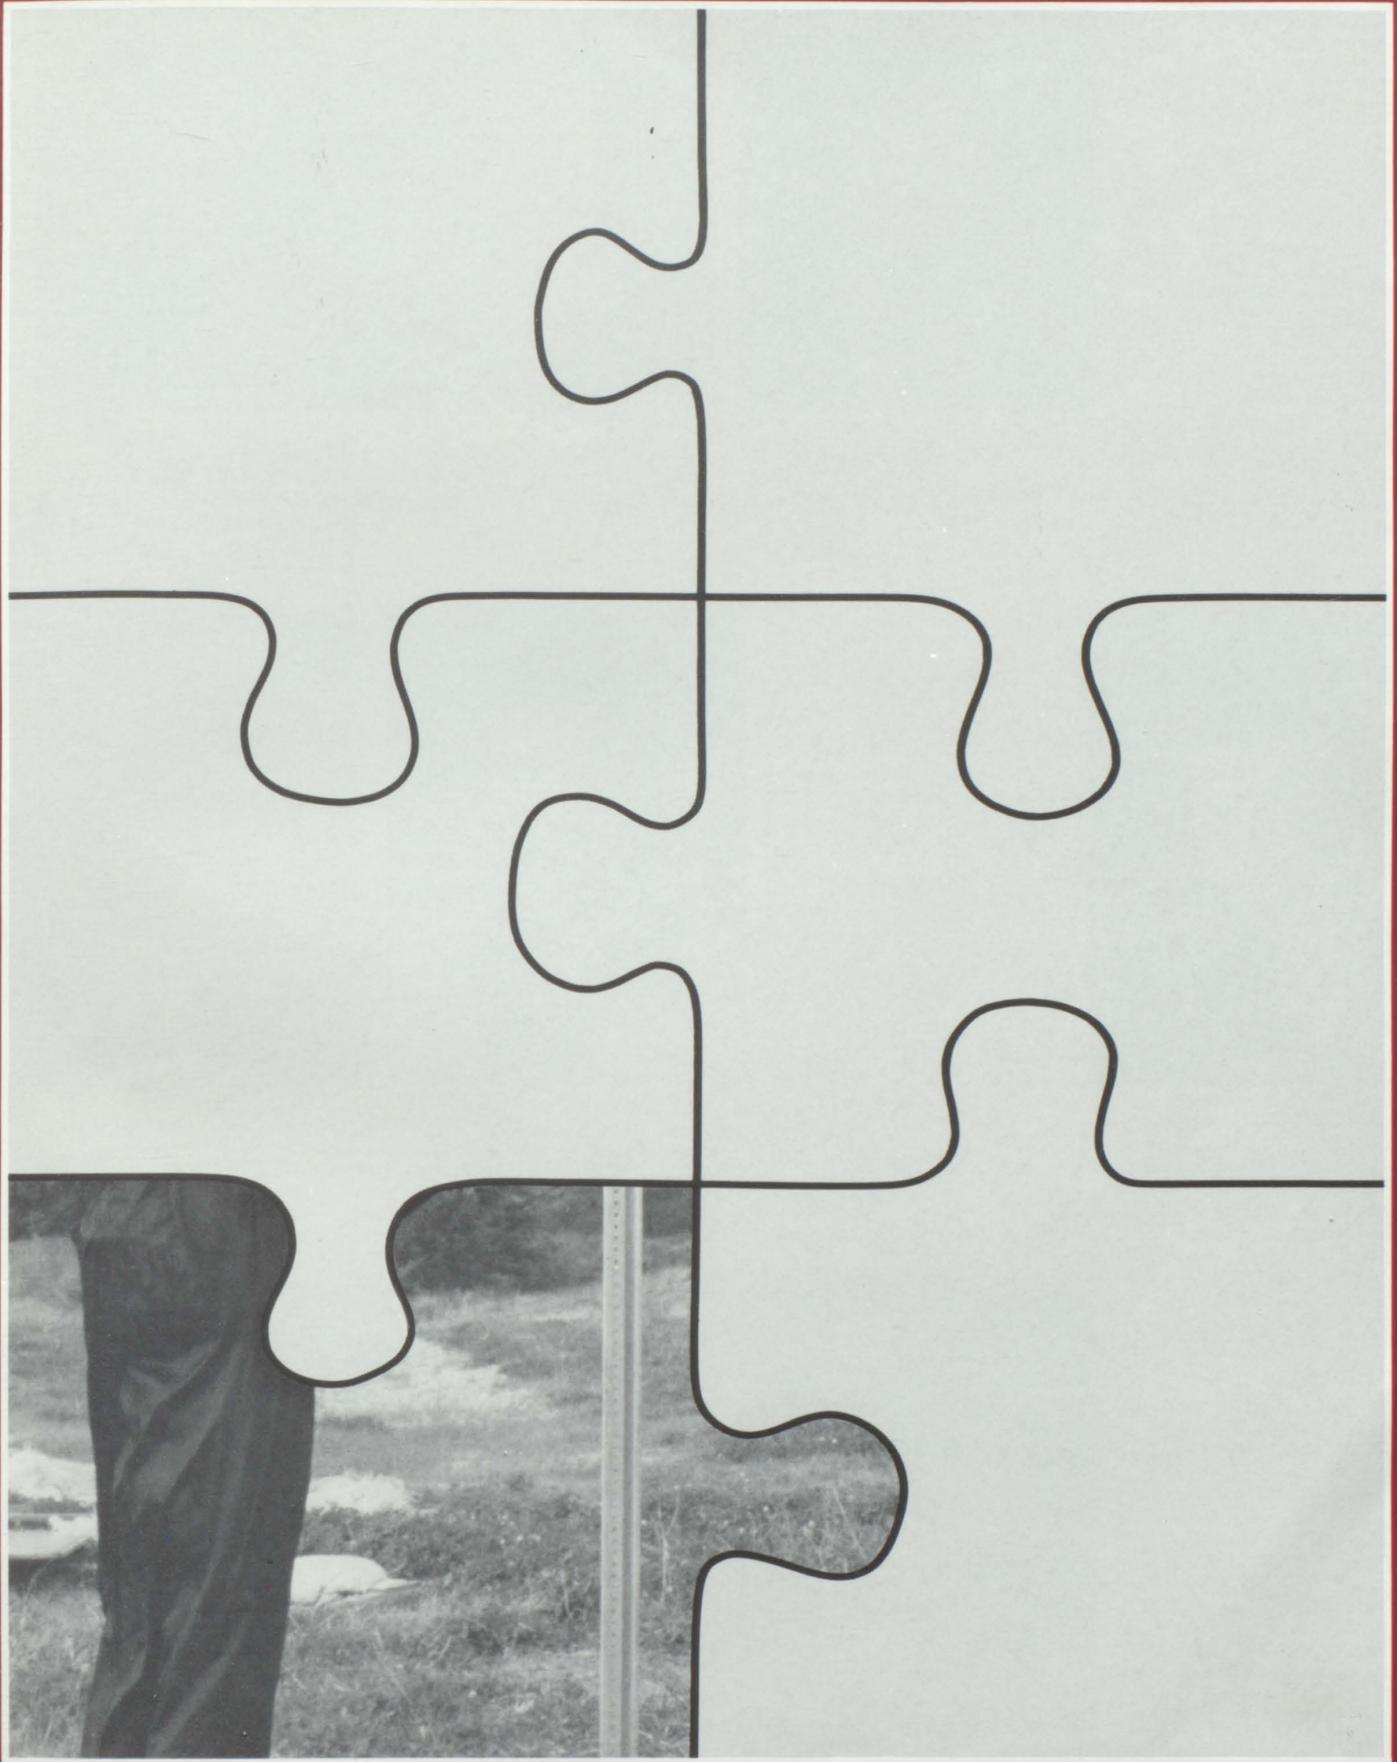

Remember how *great* Monday's were? No matter how rotten and tired you felt, a "hello" from a friend on your way to class always managed to crack a smile. It gave you the strength to prepare for the long day ahead. School days were tough, it's true, but by the time we were Seniors most of us perfected the skills needed for high school survival; anything from roaming the halls without a pass to opening your locker without the combination.

However, the bulk of our learning, miraculously enough, has taken place in the classroom. Within these walls we have tackled everthing from the tragedy of Macbeth to the quadratic formula to the dissection of a rat. Who could forget the agony of sitting in class at the edge of our seats waiting impatiently for the bell to ring? Tick, tick, tick...Brrring! Freedom-- the five minutes we relished more than any time during the day. Adults said that we couldn't budget our time; we knew better. A quick trip to the cafe for a snack, maybe catch up on any gossip that may have surfaced during the previous forty-four minutes, give a quick smile to the cute girl you've had your eye on and then back to reality-- the dreaded trek to your next class (Room 704-- the Science wing.)

Yet we took it all in stride, for school provided us with the opportunity to spend time with those cherished the most; our friends-- and where would we be without them? Throughout the years we've experienced both good and bad. Whether it was the Scavenger Hunt that "got out of hand", the class car wash in Carvel's parking lot, or the weekend of the Junior Prom during the pouring rain, we've stuck together and our friendships stood strong.

After all has ended and we have cherished every passing moment, we will someday sit back and reminisce about the days of youth, when life without care was the only way to live.

Class History

Junior High was nearing completion and somewhere along the line someone told us that the next four years would be the most important of our lives. Who knows whether they were right or wrong? Yet, no one could have foreseen what lay ahead.

As freshmen we entered a new home which was to be ours for only a year. However, we made the most with what we had. Our basketball, baseball, and football teams combined for only two losses throughout the year. Our favorite TV show was Growing Pains--maybe because we were suffering from them ourselves. Freddy Krueger was the man of the hour. Not even Freddy, however, could top Jon Bon Jovi's stranglehold on the female population in our class. As the year came to an end we knew that our three years in the "big" school would soon be upon us.

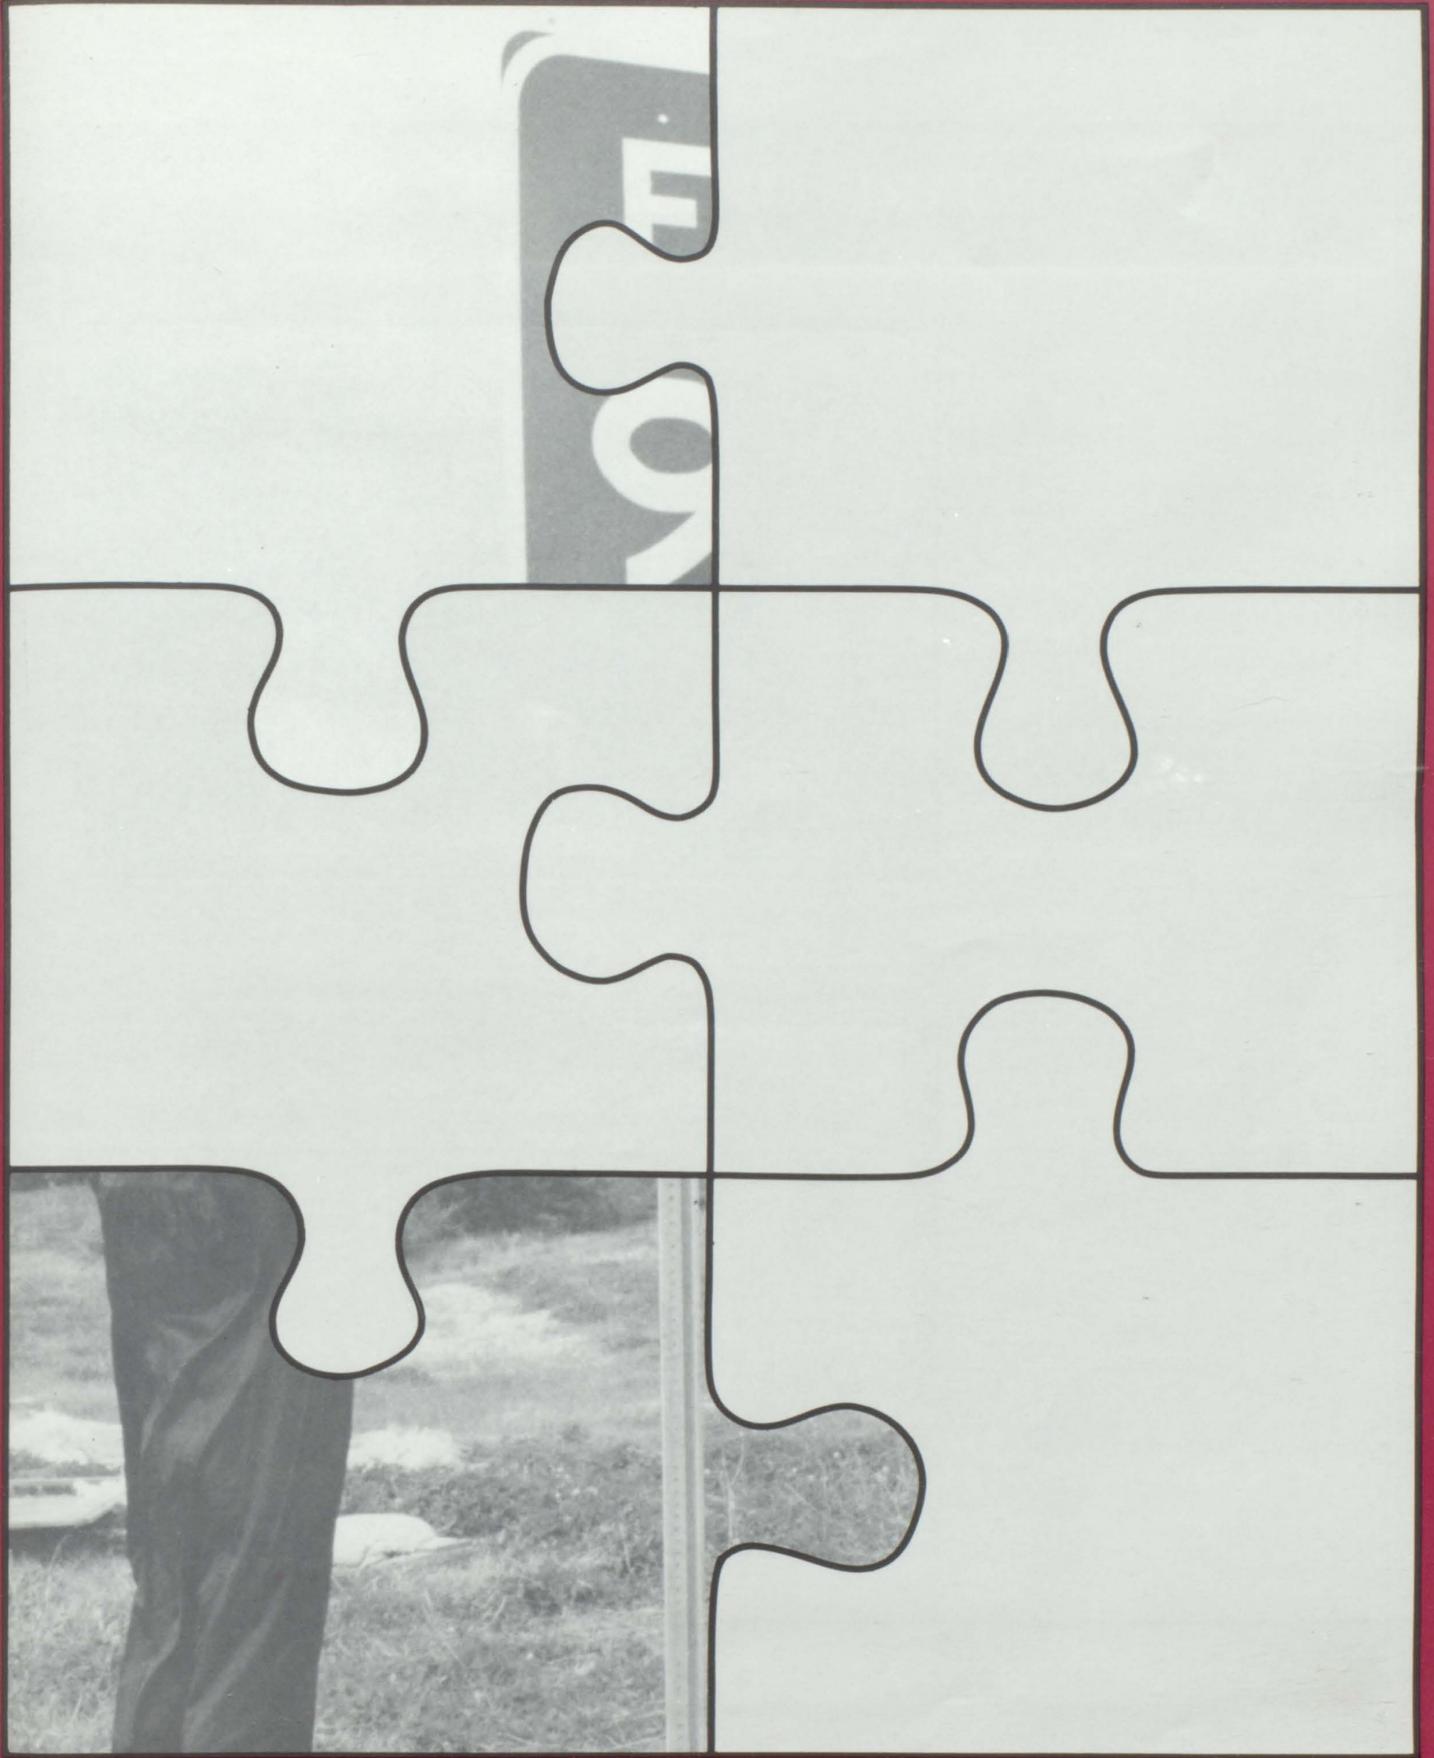

We went forth with adventure, even though the new faces and places were a bit intimidating at first. We were met by two exuberant advisors who would lead the way and help us through our high school years. North Haven soccer ruled the Housy in the fall and our baseball team ruled in the spring. Our first big assignment was handling the publicity for the Talent Show, which was a roaring success. It proved to be a harbinger of many successes to come. Our future at North Haven High School looked bright.

Junior year rolled around and as usual things really started cooking. The soccer team continued the North Haven dynasty, while the girl's basketball team and the ice hockey teams joined the bandwagon of Housy champions. The boy's hoop team made it to the state finals in one of North Haven's finest years athletically. Our first major fundraiser was Chocolate Pudding Wrestling. For a moment in time, the gymnasium was transformed into a major arena where opponents battled and brawled to emerge victorious from the pudding battlefield. The event brought us together for some laughs and was a financial success. With the springtime came the hypnotist and dozens of chocolate bunnies. Both the hypnotist and Peter Cottontail were quite helpful to the class as a whole and to many of us individually. We added to the class treasury and many of us earned free prom bids. Our prom theme "The Best of Times" said it all. The prom was great as Stephen Bergin and Amy DePoto ruled regally. We finished the year more financially successful and more stable than any other previous junior class--a trend we hoped to repeat our senior year.

Finally, we're seniors and with seniority came responsibilities and goals to be accomplished. For most of us, the first few months we spent taking SAT's and completing brutal college applications that would fill our minds with thoughts of acceptance, rejections, and waiting lists for the months to come. In between these frets and worries, we managed to work laboriously at meeting yearbook deadlines, creating a 1990 calendar, and planning for our class play CAMELOT. The battle for the prom theme ended with Kenny Rogers' "Through the Years" as our final choice. After weeks of struggle we seniors were finally allowed to fix up a space and call it "The Senior Lounge". We triumphed in sports as our football team joined elite teams in the state with our 8 - 0 start and the girls' soccer team ended its season ranked 14th in Connecticut.

With some of the major projects behind us we relaxed a bit and began to prepare for the rest of the year. March brought a battle of knights and wizards as CAMELOT came to life on our stage. April brought cheers and tears as college admissions and rejection letters began to appear in our mailboxes. In May we danced to Kenny Rogers' music and looked forward with eager anticipation to our graduation day in June when we would say goodbye to school, faculty, and friends and begin to look forward to new schools, workplaces, and friends we will encounter in the days to come. Farewell North Haven High School. You have sheltered and educated us in a warm and cheerful environment that we will treasure in our hearts forever.

To the Class of 1990:

This is a special class to me. We came to North Haven High School together. My hope is that you've learned some "stuff" and something about yourself while you have been here. I have learned a lot these past three years and thank you for being part of the "teaching." Together, I think we have helped continue the tradition that North Haven High School is a "good place to be."

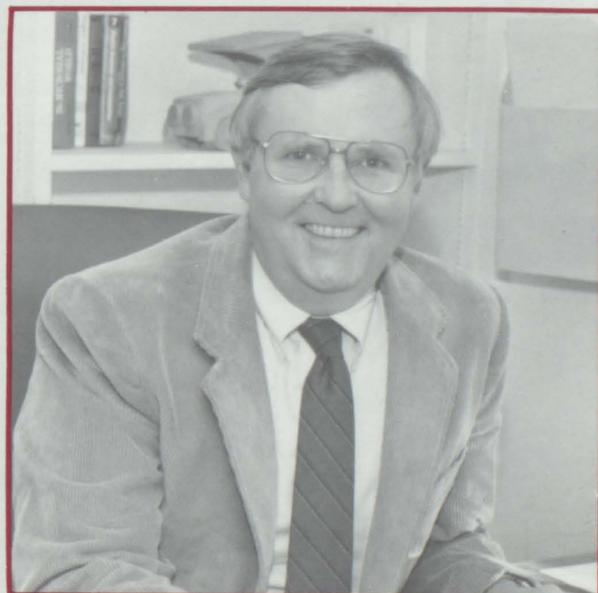

Finally, my hope is that you will look at your yearbook some twenty years from now and feel that you both "gave" and "got" during your three years here.

Thank you for continuing the tradition of excellence. Best of luck in your future.

DEDICATION

Karen Cukrowski

Ann Valanzuolo

As students of North Haven High School, we have all been faced with many problems and challenges throughout our school years. However, the problems have somewhat been answered and the challenges have all been faced thanks to the support and dedication of our class advisors: Mrs. Karen Cukrowski and Mrs. Ann Valanzuolo.

Throughout the years they have gone beyond the role of class advisors to become our friends. They supported us not only as a group, but as individuals, too; although each of us at times had ideas and opinions contrary to our classmates.

We could always count on them for an honest opinion. Sharing our opinion was never difficult, no matter how out of the ordinary it might have been. We would like to thank you for making us feel comfortable throughout the years we've worked together. It was truly an honor to have both of you as class advisors, teachers, and friends. We could not have found two more dedicated, supportive, kindhearted people to guide us through our high school activities, fundraisers, and special times.

Thank you for everything. . . We could not have made it without your support and guidance.

The Class of 1990
