foreword

We believe these short years have helped us fit ourselves for the world of ideas and problems into which we are moving. The instruction, the work, the play, the friendships made with classmates and teachers alike — these are taken away. Left are memories which in recollection will become more poignant.

In this the 1957 *Sachem* we attempt to capture in a few pages of pictures and words those principles and memories to which we will be eternally loyal, and we hope this volume will preserve accurately the year 1956-1957 so that we may often recall our happy times at North Haven High School and sustain those fond memories.

We present this *Sachem* to the teachers and students as a review of what we believe has been one of our happiest years, and as you leaf through these pages, we hope the images reflected are truly clear and inclusive.

VIRGINIA LUCAS
THOMAS PEARSALL

dedication

It is our privilege here to express what many have felt about one woman. Words of appreciation for her devotion and loyalty are at best inadequate and at times may seem conventional. But these few sincere words are the closest we can come to expressing a gratitude that runs very deep within us. When such a woman retires, to devote her love to a child of her own, we who remain should assess her activities and her qualities that have helped make us strong.

A gifted mathematician, she served us with mind and heart as a member of the North Haven High School faculty. Her patience and perceptiveness in the classroom, combined with her grace of manner, womanly charm, and warm sympathetic interest in our school life will ever be remembered.

In dedicating this volume of the *Sachem* to *Marilyn Zuckerman*, the Class of 1957 joins together in paying tribute to the one whose perseverance has helped transform a vision into reality.

In Memoriam

joel pierpont beach

A good heart, benovolent feelings, and a balanced mind, lie at the foundation of character. Other things may be deemed fortuitous; they may come and go; but character is that which lives and abides, and is admired long after its possessor has left the earth.

— *John Todd*

appreciation

The *Sachem's* road to success was quite often strewn with obstacles. It is when these obstacles appeared insurmountable that we turned to others for help. Full realization of how much we owe to those who have answered the call seldom comes until much later, when we look back over our memorable years.

It is here that we wish to express our sincere appreciation to *Miss Joyce Fontaine* and *Mr. John Nigro*. The few words we write here represent only a fragment of the deep thanks that we offer to these teachers. We hope that this message of appreciation will help to repay our debt of gratitude.

superintendent's message

Congratulations upon the achievement of the goal for which you have been working for many years! Graduation is the symbol of the knowledge, the maturity, the progress you have acquired from the day you first entered the public schools of North Haven.

Graduation is both an end and a beginning. It marks the last meeting of the class, the last dance, the last football game, the last club meeting, the last stimulating contact with the teachers of NHHS. There is a great deal of sadness at leaving your friends and classmates, your school, and the experiences you have had here.

But graduation is also commencement, the beginning of a life more full and more productive. It is moving toward adulthood, toward great freedom and great responsibility. Commencement looks to the future far more than to the past.

Courage, self-reliance, maturity, and integrity will be essential as you leave the protective security of home and school to take your place in society. These qualities you have achieved in some measure and will continue to acquire in college, at work, in the armed services.

The future belongs to you, and you are well-prepared for it. We wish you well!

principal's message

Goodbye to all of you, the members of the Class of 1957. You have done a superb job here at North Haven High School, and we are relying on you to continue this good work wherever you may be.

Although you may feel that "high school days" are over, remember that in a very real sense what you have done and will do, continues to influence North Haven High School.

Many things which originated during your time with us will become tradition as the years go on. Events which took place while you were here will be looked upon, and remembered, as examples which succeeding classes may follow. Even mistakes which were made may turn out to have positive value, for we will have learned what to avoid and to improve upon.

Just as the things you leave behind will influence us, so will your achievements in the future. We who are still here will be measured in terms of your success. If you continue to do the good job you have done in the past and to meet the standards of which we know you are capable, then those who follow will derive the benefits of the trails which you have blazed.

We will try to live up to your standards and we wish you every success in whatever you undertake in the future. We will miss you, but we will never forget you.

Favorite guideposts along the trail, pointing the way to the solution of our problems, were the administrative assistants.

Nouns! Pronouns! Gerunds! How can we ever forget those parts of speech as they reappeared nightly in our dreams? Creative writing turned out future novelists, as lively discussions of literary works turned out tomorrow's critics.

However, after hours of wrestling with a sentence diagram, or wading through five acts of Shakespeare, our hearts went out to our understanding English teachers. Perhaps only in retrospect can we fully realize and appreciate all that these teachers have accomplished with our seemingly impenetrable minds.

History may be a study of the past, but at NHHS it was livened up by field trips, films and inter-school forums. First hand experience was gained by trips to the United Nations, to local industries, and to other points of interest.

Our social studies teachers taught us economics, government, and history. But even more important, they taught us that our own trail of memories is just a small avenue to man's thoroughfare of knowledge.

The Language Department was a new strange world which we entered bewildered and left self-assured and confident that we could converse with any Frenchman, or Spaniard in his native tongue and could recite through the first paragraphs of Caesar's Gallic Wars and Virgil's *Aeneid*.

Familiar Christmas carols and native folklore with strange sounding words, records with too swiftly spoken, incomprehensible words and those "quickie" quizzes that we just adored, and our enjoyable trips to New York City to visit restaurants and theatres of foreign atmosphere will all be preserved in our hearts and etched in our memories.

commercial

With the help of our patient teachers, we mastered commercial courses. Despite errors that seemed to make us experts at erasing, rather than typing, and with our shorthand that even we had difficulty in transcribing, we have become past masters at taking a letter. We have learned to keep excellent books, and those weird contraptions called adding and transcribing machines will finally behave for us: and thanks to the trails of law classes, we can toss out our legal terms like so many commercial lawyers.

memories

seniors

let's follow the trail . . .

a very different trail, along a path of cherished memories, looking back over our footsteps with the Class of '57.

We began our journey up Freshman Hill a little apprehensive and very timid. Thanks to our pocket "policeman," the *Tomahawk*, we stumbled our way through the maze of hallways and classrooms with dubious success.

After a few weeks of aimless wandering we finally settled down to the business at hand. Our first high school activity, the Freshman elections, followed a whirl of petitions and a case of ulcers for Mr. McDowell, our patient advisor. When the campaign chaos had died down, Warren Stubblebine, Danny Holt, Judy Eriksson, and Ernie Del Monico were chosen to lead us.

The tangy fall air set the scene for our first dance, the *Turkey Trot*. As couples tripped the light fantastic, we suddenly realized that we had started a long trip down the trail of memories.

Rounding the bend as Sophomores with Ernie Del Monico, Charlie Aftosmis, Elaine Mancini and Bryant Brunye as our capable guides we were met head on by Caesar, theorems and amobae. No sooner had the music of the *Harvest Hop* died down then plans for our own *Balloon Ball* were being made. It was quite evident from the hilarious laughter and popping balloons that this gala affair would put a feather in our upperclassmen's caps.

Spring was greeted with cries of, "carry your books for a penny . . . just one dollar and your car looks like new . . . boy, do those shoes need a shine! only ten cents . . ." and the *Penny Crusade* was under way. Credit where it's due . . . Thanks, Mrs. Zuckerman.

Bryant Brunye, Charlie Aftosmis, Elaine Mancini and Eddie Obrist were the first to see that the trail was beginning to widen and only one more bend was left.

Soon the time was right for our biggest class activity, *Mood Indigo*. While couples whirled to the theme music, we congratulated the committee for a truly magnificent job.

Suddenly we noticed students prancing through the halls with their hands extended . . . why, they looked like the Class of '57 flashing their showy class rings . . . oh, those envious smiles!

The P.A. system continually blared, "Will the owner of car bearing license plate 02 BAD, please report to the office. Your car is blocking the front door."

A little further along the way we heard of the selection of Susan Henry and Carol Engster to attend Laurel Girl's State, and of Tom Pearsall, Bryant Brunye and Walt Jensen to go to Nutmeg Boy's State. Soon after, classes polled their votes for Student Council officers and Severin Palydowycz, Bill Littauer and Yvonne Qualls emerged victorious to represent the Class of '57 in the following year.

We ended the year in a whirl over graduation. Sad to lose friends, glad to be seniors at last. Perhaps the saddest note, "Mrs. Zuckerman is leaving!" "Goodbye, and the best always."

Mr. Colangelo stepped into the role of advisor to help Charlie Aftosmis, Ronnie Martindale, Elaine Mancini, and Eddie Obrist guide the class around the last bend and down the home stretch.

The doors of the courtyards opened to us at last, and regardless of the weather, there was an energetic senior "whipping" through the hallowed ground. The chill of winter brought on the last home football game and the *Harvest Hop*. Elaine Mancini exchanged her megaphone for a crown to reign as *Harvest Hop Queen*. The *Sachem* was underway with the cry, "Sell every 'ad' you can, and then sell three more." Deadlines were miraculously met and a good deal of sleep was lost. Soon the seniors began to frequent the gym as the basketball team was off to a successful season. Basketball gave way to baseball and studies gave way to dreamy looks out the windows. Almost too quickly the senior play and final exams were over and graduation practice had begun. And then, graduation weekend, and the last four steps on the trail of memories.

The Senior Prom, a rhapsody in music, was the first step. Banquet and Awards Night, followed by the Baccalaureate Service were the next two. Our final and most solemn step was at hand. We walked together for the last time through the crowded auditorium while Charlie's last words mingled with strains of "Pomp and Circumstance".

We have stepped off the marked trail of memories. The ones that we will now follow are to be cleared by our own methods and choosings. May they always be the best!

senior advisor

mr. eugene colangelo

Mr. Colangelo stepped into the advisor's shoes as we entered the home stretch in our trail of memories. The pace was never slowed down, but increased noticeably as he moved to the lead and began clearing the many obstacles that would undoubtedly be encountered.

Through his patient and understanding guidance, the trail after NHHS will be much clearer and easier to follow.

As the golden thread of knowledge
Weaves a path into the light,
We will always carry with us —
Mem'ries of maroon and white.

Singing loud and clear your praises
We raise your banners to the sky!
Striving forward Alma Mater,
For you, North Haven High.

The years are quickly passing by,
Leaving mem'ries fond and true.
Within our hearts we'll always be
Firm and loyal unto you.

Newzflashes . . .

Sue Henry has just been promoted to editor of the *Mongolian Times*. On hand for the festivities were Charlie Aftosmis, principal of NHHS. Also present were Barbara Mastroianni Charliene Snedeker, Ariel Platt, and Nancy Miller, noted Connecticut socialites.

Sports Special: All-American Bryant Brunye has suffered his defeat in ninety matches. Brunye's impressive string was snapped by Bob Magnuson, former bowling champ. The chess match was refereed by successful engineer, Tom Pearsall, who, by the way, has purchased his third locomotive in two weeks.

Policeman's Brawl

Last Saturday night the annual *Policeman's Brawl* was held in the North Haven High School gymnasium. Music was supplied by the modern jazz trio of Gail Hansen, guitar, Betty Rogers, bongos, and Russ Biral, piano. The committee was composed of the following policemen: Bob Lundgren, chief, Bob Foote, sergeant, Don Vitagliano and Al Urban, patrolmen. New York's famous lawyer, James Boudreau, spoke on "100 ways to carry a briefcase."

Entertainment

The celebrated Pepsodent Twins, Carol Daniel and Wayne Childs, having just returned from a smiling contest with Liberace, are going to be auditioned by director Bill Littauer for parts in *Our Little Angels*. It is a known fact that Broadway stars Karen Johnson and Fred Way are assured of leading roles. It is also highly probable that literary critic Virginia Lucas will offer some constructive criticism to director Littauer before the play opens in New York. An interesting sidelight is that Hollywood smash George Giannotti and Metro's chief set designer, Ed Pierpont, have arrived to talk over possible contracts with producer Clarke Rockwell.

Olympic Awards

Yvonne Qualls and Leroy Harris have won three gold medals apiece for the U.S. olympic team in Eastern Guam.

It is reported that heiress Molly Dunn will return from her chartered tour of the universe on the 5:38 express from Mars . . . Yale's head librarian, Lucille Price, has been found after three day's search; she had been looking for a book on gasoline tax for Joe Prete, local ESSO representative . . . Judy Anderson has been selected the "mostest" at Dartmouth . . . Mike Tessitore, head of research for broken noses in Canada, received a grant of \$7,000,000 for a new hospital from construction boss Don Tenedine.

Scott Vs. World

Tomorrow in court, Judge Al Pavis will hear Herb Scott testify in his own behalf. Herb is still determined to prove that his opinion is as good as anyone else's. Miss Mary Porter, of Debate Club fame, is representing Scott, while Paul Lewis is the prosecuting attorney.

Fashion Notes

Comedienne Camille Bonito not only has Paris rolling in the aisles, but Miss Bonito's outstanding hat creations are the center of attention also.

It is interesting to note that Laura Buonocore and Sandy Carlson have opened a ladies' sequel to "Gentry" to be opened in North Haven next Friday.

Ronald Martindale and Theresa Guandalini, Arthur Murray's most promising protégés, have created a mild sensation by doing the minuet in plaid Bermudas.

Peggy Heath and Marie Idone have combined forces with Doris Killman to introduce to the market a new line of matching umbrellas and knee socks.

The first few steps are the most trying. You have met and conquered the early obstacles and have now begun to realize what is to come. That far distant bend in the trail is getting closer with each memorable footstep. When at last the goal is reached, you may look back with undying pride.

class of 1961

The light seems brighter now, the path surer. Your footsteps have just begun to fall firmly, but the trail is well marked by those you have chosen to follow. Soon you will have a clear view of the path you have already traveled and what lies around the final turn.

the sachem

Although there have been a few rough spots along the trail of memories, perhaps the most interesting and different collection of bumps was found in the evolution of the *Sachem*. Obstacles such as advertising, art, typing, literary work, photography, layout, biographies and coordination were met head on and overcome in our constant struggle toward completion.

Before anything can be done with a yearbook, it is necessary to decide how much of what goes where, and what is to be our limit — in other words, layout. Constantly Miss Fontaine came to the rescue as we became bogged down. She lent to the editorial staff a skill which comes only from much experience and hours of hard work.

Naturally, a yearbook needs pictures. Our photography staff, headed by Susan Henry and Mike Tessitore, employed the talents of Mr. Wright and the Jay Storm studio produced pictures that even *Life* could be proud of. It is these tiny sketches from life that will make the yearbook enjoyable even when the pages are worn and

the print is illegible.

The job of making the *Sachem* readable fell to the editors. They wrote and re-wrote, edited and re-edited; and in spite of the deadlines, which seemed to us to complete a trio with death and taxes, the yearbook was ready on time.

Special credit goes to the typing committee. Long hours of pounding their machines and brave struggles to decipher "legible" handwriting earned them much praise and thanks.

A yearbook has to be paid for. Mr. Nigro's advertising staff, led by Ed Obrist and Herb Scott, sold enough ads to defray a good deal of the cost.

Finally, all these jobs had to be coordinated. That task fell to the yearbook editors. From hunting down a missing picture to counting type, they tied together the efforts of those who, in creating the *Sachem* through composition, illustration, and financing, gave their utmost to unravel the tale of our trip down the trail of memories.

north haven high school

At the commencement of every meeting we heard Sev say, "Will the meeting please come to order," as the North Haven Student Council settled down to work. The council certainly had a lot of business to attend to. How can we forget the posters and campaign speeches in May, or the elections, and inauguration ceremonies at the beginning of the year. Of course we haven't lost memories of the wonderful *Harvest Hop*, or the crowded gym on March ninth as the *Juke Box Hop* inscribed itself on our trail of memories.

The members of our council family had many little relations which functioned smoothly to bring about many improvements to NHHS. There were

the kind souls who edited the *Tomahawk*, a true blessing to the wayward newcomers to our school. Another committee handled the problem of placing the sign given by the Class of 1956 in a convenient and noticeable location. A third group looked into the cafeteria situation, and, like all other parts of the council, they have done an outstanding job.

Severin Palydowycz, Bill Littauer, and Yvonne Qualls were very important senior leaders on our trip down the trail of memories. We will always be thankful for the confidence we had in the members of the Student Council, and we say to them, "Thanks for the memory."

the potpourri

Another happy first! The *Potpourri*, NHHS's first literary magazine received the best possible vote of confidence from the students — instantaneous response when the magazine went on sale. An outlet of expression for budding authors of all classes and styles from Poe to E.E. Cummings, the *Potpourri* has created an excellent literary standard for NHHS.

To the patient and persevering staff under the assiduous direction of advisers, Mrs. James Doyle and Mr. William Clark and editor, Bill Littauer we cast our vote of thanks for the many hours of enjoyable reading during our peregrination down the trail of memories.

"Extra! "Extra!" This was the familiar cry as the *Torch* went on sale every month. Under the capable leadership of editor Sue Henry and advisorship of Miss Joan Message and Mr. James Adams, the *Torch* placed first in a contest sponsored by the Columbia Interscholastic Press.

The capable and diligent staff presented an excellent coverage of the news of the day, student activities, and sports. Through editorials and excellent feature stories, the students became well acquainted with the whole school.

Congratulations to the *Torch* staff for keeping us up to date on our trip down the trail.
